**About The LGL Group, Inc.**

The LGL Group, Inc., through its wholly owned subsidiary MtronPTI, manufactures and markets highly engineered electronic components used to control the frequency or timing of signals in electronic circuits. These devices are used extensively in infrastructure equipment for the telecommunications and network equipment industries. They are also used in electronic systems for military applications, avionics, earth orbiting satellites, medical devices, instrumentation, industrial devices and global positioning systems. The Company has operations in Orlando, Florida, Yankton, South Dakota and Noida, India. MtronPTI also has a sales office in Hong Kong, China.

**Recent Highlights**

- On June 15, the Company announced it had received authorization from Lockheed Martin Aeronautics Company to do its own final release testing of highly engineered parts used in a wide variety of Lockheed Martin's products and systems.

- On April 21, the Company announced it had secured active projects with 12 industry leaders in the \$10 billion satellite manufacturing market including Boeing Space Systems, L-3 Communications, Northrop Grumman, Trak Microwave Corp, NEC-Toshiba Space Systems, and others.
