MtronPTI Expands Customer Service Focus; Adds Mark Newcome as Director of Business Development

ORLANDO, FL, June 21, 2012 – MtronPTI, world leader in custom frequency control and filter products, today announced that Mark Newcome has joined the company as Director of Business Development and Regional Sales Manager. Mr. Newcome brings over twenty-five years' experience in sales and marketing frequency control solutions in commercial applications. His focus will be on increasing support for MtronPTI's broad customer base in the United States and throughout the world.

Reporting to the Company's President and CEO, Greg Anderson, Mr. Newcome will expand MtronPTI's reach through increased territorial attention and strategy development to support MtronPTI's growth initiatives. Mr. Anderson said, "Mark's previous experience growing sales in Asia, Europe and North America closely aligns with our goal of growing our broad-base clients who today represent about one-third of total sales."

Mr. Newcome will also assist the Company in improving information flow to existing and prospective customers, by coordinating efforts to further develop the Company's digital media outlets and making it easier to compare solutions and evaluate vendors.

"If you're designing system solutions for internet data flow, public safety communications or avionics, there is always a need to lower costs and mitigate risks, all while increasing system functionality," Mr. Newcome notes. "MtronPTI is an industry leader with a strong reputation for developing leading edge solutions and providing personal service. I am delighted to join the team and assist in bringing these same customer service values to more growing companies. The goal is to treat every opportunity as our highest priority."

Visit MtronPTI at Booth #2103, International Microwave Symposium (IMS 2012) June 17-22, 2012, in Montreal, Canada, and take the opportunity to meet Mark Newcome in person.
