MtronPTI Introduces New Features in Precision TCXO Series

Florida-based MtronPTI Introduces New Features in Precision TCXO Series Product options offer increased capabilities for telecom applications

Orlando, Florida, April 19, 2012 – MtronPTI, a world leader in frequency control and filter products, has announced the expanded capability of its popular M610x and M611x Series HCMOS/Clipped Sinewave compatible temperature controlled clock oscillators.

The new products provide both 4 and 5-pad package options which simplify board layout and meet updated industry standards. A tri-state capability is also available in the 5-pad version, allowing users to power the output on and off, an efficiency measure for testing multiple boards.

“The increased functionality of our M610x and M611x Series TXCO’s is aligned with the growth of our full range of product solutions,” said Dick Thompson, vice president of sales and marketing at MtronPTI. “With these new 4 and 5-pad options, MtronPTI is able to offer a versatile range of opportunities in one package and conform to new industry standards for our customers.”

The series offers low phase noise and excellent G-Sens performance at 1.5 ppb/G and also features a small format 5x7 mm SMT package with a frequency range of 8 to 52 MHz. The M610x Series is Stratum 3 compliant specifically for telecom applications. Both product series are available in the 4-pad or 5-pad with tri-state versions, and a 10-pad version.

For more information on MtronPTI’s M610x and M611x Series TCXOs, or any of its other products, please contact MtronPTI at 407-587-2250 or marketing@mtronpti.com.

About MtronPTI

MtronPTI is a leading designer and manufacturer of advanced, highly engineered frequency control and electronic filter products. The company specializes in developing custom products for advanced frequency control applications. MtronPTI is based in Orlando, Florida, with global design, sales and manufacturing locations in North America, Asia and Europe. MtronPTI is a wholly owned subsidiary of The LGL Group, Inc. The LGL Group, Inc. is listed on the NYSE

Amex and traded under the symbol "LGL." For more information, visit our websites at <http://www.mtronpti.com> and <http://www.lglgroup.com>.
